<hr/>	
Total Payment to Hospital to date	\$ 1,400,765
% of Total Charges Paid Post- Advo	25%
% Increase from Original Payment	300%

### Scope

An 8 Hospital Health System in Michigan using an onsite Medicaid vendor wanted to ensure patients were receiving the best benefits available and that they weren't missing higher payer opportunities. Advomas sent file specs to review the last 9 months of zero balance cases.

Through this project, 153 patients and counting received enhanced benefits and the hospital was reimbursed at a 300% higher rate than originally paid.
