

Neighbors. Family. Advocates.

Advomas is Michigan's only independently owned and operated healthcare eligibility advocate company.

- **40 years of reducing uncompensated care** and resolving complex payer claims
- **HIPAA & SOC2 Certified** and committed to data security
- Comprehensive training and **direct contracts with MDHHS and MARA workers**

Partners that integrate Advomas instead of using traditional in-sourced models experience a 20% increase in bottom-line reimbursement. Our tenured 100% American workforce is comprised of diverse backgrounds and experience that have a proven track record of superior patient experience; translating into fewer uninsured and healthier communities.

We are experts in finding payers in many service lines.

- Medicaid Programs
- Social Security Income and Disability
- Other third-party payers include Workers' Compensation, No Fault, COBRA Veterans, Homeowners, and Medicare

Mission Before Money

Our mission is simple. Find coverage for patients, and help providers maximize their resources, so that they can better realize their goals. In doing so, our compensation takes care of itself.

- We are paid for services after our clients have been paid
- We work with simple percentage and flat fee terms
- No administrative fees
- Flexible service agreements

Innovative, Flexible Staffing Solutions

There are 3 ways Advomas works with providers.

- Advocates staffed on-site at hospitals in emergency departments to work beside patients as well as outpatient referrals
- Advocates work off-site, receiving discharged, outpatient and complex claim cases through electronic work queues and other automated referral processes
- Our Advochek® service line works through providers' self-pay backlog before it goes to bad debt/charity to find recovery possibilities where others couldn't

In-house Legal Counsel

Onsite experts in No Fault, COBRA, ERISA and Social Security Disability

- We retain the law offices of Knight & Firth, P.C. for streamlined litigation when necessary
- Our legal fees are charged with the same Advomas philosophy; once our client is paid, we are paid

Leverage Your Technology

With AdvoSource®, referring to Advomas couldn't be easier. AdvoSource enables real-time referrals and delayed work queues to be seamlessly transferred between Advomas and provider EMR. This fluid communication creates an exceptional standard of efficiency. And our expertise in the systems of the country's top EMR vendors means that this information is safe and secure at all times.
